

Hawaii Volcanoes National Park

Commercial Services Plan

Public Comment Response Form

National Park Service
U.S. Department of the Interior

The Hawaii Volcanoes National Park Commercial Services Plan (CSP) will identify the types and levels of commercial services that are consistent with protection of park resources and a quality visitor experience. Only commercial services that comply with the mandates for the park and contribute to achieving the goals for the park will be authorized. Newsletter #1 presented the planning framework being developed for this CSP. Your responses to the following questions will ensure that the perceptions of everyone associated with Hawaii Volcanoes National Park are considered in this planning effort.

Your Feedback Is Important!

Enclose additional sheets if needed.

1. What do you especially value about in the park, given the mandated purpose of the park?
2. In your vision of the park 10 years from now, what visitor activities would occur and what commercial services would be offered to support those activities?
3. How would the services identified above fulfill the mission of the park to protect park resources?
4. Do you have any ideas, issues, or concerns about this planning process that you would like the planning team to address?
